How To Find Password For Wifi On Mac

It could also be a 'hidden' network You can connect to a hidden network by choosing 'Join other network' and entering the name of the network you're trying to use.. After you select your network, enter the network password when you're prompted If you don't know the network password, check with the owner of the Wi-Fi network you're trying to join.. The strength of each nearby network is shown next to its name More darkened bars indicate a stronger network connection.
